PROFESSIONAL EXPERIENCE

— SIDE A — Support experience highlighted

A1 — IT Support Assistant / Office Software Deployment
Bouygues — Apr. 2025 → Aug. 2025
- Installed and configured office and communication tools for users.
- Prepared workstations, user workspaces and work environments.
- Helped users get started with internal software and resolved common issues.

A2 — Web Developer — Kotan Voyage
Sep. 2025 → Sep. 2026
- Developed booking websites and integrated APIs, including RateHawk.
- Structured databases and automated business workflows.
- Managed payments, webhooks and related verifications.

A3 — Apprentice Web Developer
Horspiste — Oct. 2023 → Aug. 2024
- Developed websites, intranets and PWAs with WordPress and Elementor; collaborated with designers.
- Built moncarrebois.fr and its online store.

A4 — Front-end Developer Intern
Espoir Jeunes — Apr. 2023 → Jun. 2023
- Redesigned a showcase website with a focus on responsive design, accessibility and fundamental SEO.

A5 — Apprentice Full-stack Developer
BearStudio — Sep. 2021 → Jul. 2022
- Developed responsive interfaces with Next.js and Tailwind CSS.
- Contributed to front-end and back-end features using Firebase and Node.js, in collaboration with the design team.

SELECTED PROJECTS

— SIDE B —

B1 — Buildflow
Project concept • Construction site management

Proposed application for site teams and administrative staff: project assignment, progress tracking, activity logs and paperwork. Aims to record problems and accidents offline, then send reports when connectivity returns.

GitHub: Dukent29/buildflow

B2 — Smart Gardening Assistant
Next.js • Node.js • MongoDB

Remote plant-care application with data monitoring, alerts and practical care guidance.

GitHub: Dukent29/smart-gardening-front

ADDITIONAL EXPERIENCE

C1 — Hospitality & cleaning
Hotel/restaurant kitchen porter · Office cleaner
- Maintained punctuality and followed procedures in fast-paced work environments.
